Loan Amount (USD)	$ 61.00 million
Project Cost (USD)	$ 91.00 million

Project Description

According to IADB website, the general objective is to help increase the effectiveness of public policies for managing disaster risk, enhancing productivity, and improving the productive performance of sectors that use satellite monitoring. Specifically, it aims to: (i) improve the monitoring and response capacity of government agencies responsible for disaster risk prevention and management by providing satellite images using synthetic aperture radar (SAR) technology; and (ii) improve satellite information to support the performance of productive sectors that use the specific applications developed through the program

Investment Description

- Inter-American Development Bank (IADB)

Country Counterpart Financing: USD 31Million

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
