IADB-AR-L1351

Program to Support Public Policies for Sustainable and Resilient Growth in Argentina

Project Description

According to the Bank's website, the general development objective is to contribute to sustainable and resilient growth in Argentina. The specific development objectives are: (i) strengthen the government's capacity for planning and financing climate action; (ii) develop a favorable framework for sustainable finance; and (iii) promote policies that contribute to the circular economy and decarbonization.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
