Investment Amount (USD)	\$ 200.00 million
Loan Amount (USD)	\$ 200.00 million
Project Cost (USD)	\$ 464.00 million

IADB-AR-L1354

Federal Regional Transmission Electric Plan (CCLIP first trench)

Project Description

According to the Bank´s website, the objective of the project is to improve the quality of life of the inhabitants of the Argentine Provinces, as well as achieve the objectives of human development, working in a transversal way with a gender perspective, with actions that imply sustainable development, through the strengthening, expansion and modernization of the infrastructure of the electric power transport network by trunk distribution. The specific objectives are: (i) to improve the reliability and efficiency of the transmission and distribution systems; (ii) increase the capacity to transport electricity; and (iii) reduce CO2 emissions from the electricity system.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
