Project Description

According to the IADB, the general objective of development is to help mitigate the impact that a severe or catastrophic natural disaster could have on the country's public finances. The specific objective of development is to improve the financial management of natural disasters by increasing stable, cost-efficient, and rapidly accessible contingent financing to cover extraordinary public expenses aimed at assisting the population affected by natural disasters. This financing will support government actions in response to the flood emergency in the City of Bahia Blanca and surrounding areas affected by one of the most extreme climate events in the region.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
