Investment Amount (USD)	$ 60.00 million
Loan Amount (USD)	$ 60.00 million
Project Cost (USD)	$ 60.00 million

Project Description

According to the IADB, the general objective of the project is to contribute to the reduction of the avoidable burden of disease associated with the priority lines of care defined by the PRN health system. The specific objectives of the project are: (i) to strengthen the institutional capacities of the PRN health system for the systematic recording of structured and integrated clinical information for use in decision-making; and (ii) to improve timely and comprehensive access for the population with CPE within the PRN public health system to cardio-metabolic and oncology care networks.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
