| Project Cost (USD)      | \$ 775.00 million                             |

### Project Description

According to the Bank's website, the objective of the project is to increase water availability and resilience to climate change risks in priority watersheds, under a multipurpose use approach, mainly for human consumption

### Investment Description

- Inter-American Development Bank (IADB)

The description of investment type was not available at the time of the snapshot. As a "Container" Project Type, the project is linked to the project "Water Resources Management and Aqueducts in Provinces Program (Catamarca-Santiago del Estero Aqueduct)" - IADB-AR-L1346

---

### Contact Information

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
