Project Description

According to the Bank's website, the objective of the technical cooperation is to provide support for the preparation of the Neighborhood Improvement and Transformative Urban Interventions Program (PROMEBA V). The TC will support aspects related to the effectiveness of PROMEBA V in the areas of resilience and mitigation of climate change, gender equality, support for the economic integration of residential communities and the migrant population to host communities. In addition, this TC will generate knowledge and capacities to address the impact of climate change on migration and risk mitigation in informal settlements. To this end, the technical and management capacities of the Ministry of Territorial Development and Habitat (MDTyH), the executing agency responsible for this operation, will be strengthened.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
