## Project Description

According to the Bank's website, the General Development Objective of the Technical Cooperation is to support the implementation of the credit operation "Support Program for the Federal Plan for the Reconstruction and Integration of the Argentine Health System - AMPLIAR SALUD". The Specific Development Objective of the operation is to strengthen the competencies of the national and subnational levels to manage the reorganization and prioritization of health care lines in the inter-pandemic phase.

## Investment Description

- Inter-American Development Bank (IADB)

The description of investment type was not available at the time of the snapshot.

## Contact Information

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
