IADB-AR-T1306

Fiscal Policy for Climate Change: Support to the Ministry of Economy of Argentina

Project Description

According to the Bank's website, the objective of the project is to support the Ministry of Economy in integrating climate action into its policy and fiscal management. To achieve this objective, this TC will finance three types of actions: (i) development of a framework for financial transparency and fiscal management for climate change; (ii) support for the implementation of green fiscal management instruments and methodologies; and (iii) knowledge dissemination and exchange of good practices.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
