IADB-AR-T1327

Support in strengthening the capacities of CONAE to foster innovation based on satellite data

Early Warning System

IADB-AR-T1327

Support in strengthening the capacities of CONAE to foster innovation based on satellite data

Quick Facts

Countries	Argentina
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of Argentina
Sectors	Communications, Law and Government, Technical Cooperation
Investment Amount (USD)	$ 0.10 million
Project Cost (USD)	$ 0.10 million

Support in strengthening the capacities of CONAE to foster innovation based on satellite data

Project Description

According to the IADB, the project will support the National Commission on Space Activities of Argentina in strengthening its capacities to promote data-driven innovation based on the data produced by the SAOCOM satellite series, through improvements in data request prioritization mechanisms and the reduction of transaction costs in data access.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
