Project Description

According to the Bank’s website, the general objective of this technical cooperation (TC) is to support the execution of the Implementation Program of the Argentine Foreign Trade Single Window Regime (AR-L1251), and the carrying out of two reverse trade missions. In particular, the TC seeks to support the Program Execution Unit by hiring individual consultants and firms.

Early Warning System Project Analysis

This Technical Cooperation is not intended to finance pre-feasibility or feasibility studies of specific investment projects or environmental and social studies associated with them, therefore, this TC does not have applicable requirements of the Environmental and Social Policy Framework of the Bank.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
