Project Description

According to the IADB, the general objective of the Technical Cooperation (TC) is to contribute to improving subnational fiscal sustainability in Argentina, in line with the objectives of operation AR-L1424. The specific objectives are: (i) to enhance efficiency in the management of provincial public expenditure and financing, and (ii) to improve the effectiveness of the collection of provincial own-source revenues. As qualitative results, the TC is expected to provide clear technical inputs tailored to the national and provincial levels (diagnostics, reform proposals, and management tools) that strengthen fiscal coordination and support the successful implementation of program AR-L1424.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
