Project Description

According to the IADB, the objective of this Technical Cooperation (TC) is to support the design and implementation of the Bank's programmatic agenda in the security sector in Argentina, particularly the Maritime Security Program (AR-U0010), through the provision of specialized technical assistance, the generation and exchange of knowledge, and the dissemination and adaptation of regional and international best practices in the country. The TC will contribute to strengthening the institutional capacities of security institutions involved in maritime security, with the aim of reducing, among other challenges, illegal, unreported, and unregulated (IUU) fishing within Argentina's Exclusive Economic Zone (EEZ).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
