Project Description

The objective of the programmatic policy-based loan series is to improve the country's governance for sustainability through the strengthening and modernization of the regulatory framework. The specific objectives are to advance the ongoing regulatory reform efforts to improve: (i) the efficiency and sustainability of spatial planning, development control, and water resource management; (ii) natural asset management; and (iii) disaster risk management and resilience. To meet this objective, the Bank has structured a programmatic policy-based loan series consisting of three technically related and financially/contractually independent operations.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
