Investment Type(s)	Loan
Investment Amount (USD)	\$ 80.00 million
Loan Amount (USD)	\$ 80.00 million
Project Cost (USD)	\$ 80.00 million

Project Description

According to the IADB, the general objective of the first loan operation is to improve the climate-resilience of the potable water sector, while supporting Barbados' agenda regarding innovative green finance solutions. The specific objectives are to: (i) Improve the reliability and the operational efficiency of the Barbados Water Authority (BWA) water distribution system; and (ii) Strengthen the technical capacity of BWA to design and implement water projects with climate and biodiversity considerations, while developing environmental impact monitoring and reporting capacities.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
