### Walkers Reserve Integrated Master Plan and Restoration Pilot

#### **Project Description**

According to the bank, the main objective is to develop an integrated master plan for the rehabilitation of Walkers Reserve and implement a pilot intervention on restoration. The program will be designed to take a comprehensive approach to environmental sustainability, climate change adaptation and mitigation, disaster risk management, the restoration and conservation of natural capital. Given the strategically important location of Walkers Reserve to a national park, the master plan will include components that value the potential recreational, sustainable agriculture, food markets, tourism and commercial opportunities for community resilience.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
