Investment Amount (USD)	$ 0.65 million
Project Cost (USD)	$ 0.73 million

Project Description

According to the bank, the main objective is to develop an integrated master plan for the rehabilitation of Walkers Reserve and implement a pilot intervention on restoration. The program will be designed to take a comprehensive approach to environmental sustainability, climate change adaptation and mitigation, disaster risk management, the restoration and conservation of natural capital. Given the strategically important location of Walkers Reserve to a national park, the master plan will include components that value the potential recreational, sustainable agriculture, food markets, tourism and commercial opportunities for community resilience.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
