Project Description

According to the Bank's website, the objective of this Technical Cooperation (TC) is to support the Barbados Revenue Authority (BRA) in strengthening its institutional capacity to effectively implement efficient tax measures in the digital economy. This TC is designed to assist tax authorities in: (i) identifying any existing challenges in digital tax administration in Barbados and laying the groundwork for necessary modernization through the identification of national and/or international best practices; (ii) analyzing and evaluating institutional capacity and governance in Tax Administration in Barbados; and (iii) disseminating knowledge and providing training to facilitate capacity building in the BRA. By achieving these objectives, the TC will contribute to enhanced institutional governance, expansion of the technological capabilities of the BRA, identification of fiscal policy solutions to address tax issues in the Barbados economy and improve revenue collection effectiveness, and improved responsiveness in risk management.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
