## Project Description

According to the IADB, the general objective of the TC is to enhance the Barbados Water Authority's (BWA) capacity to prepare and implement an investment program for mains replacement and non-revenue water reduction. For this purpose, two specific objectives have been pre-identified: i. Support the development and implementation of a comprehensive program for replacing aged and malfunctioning water mains; and ii. Enhance the technical capacity of the BWA to assess and manage physical and commercial water losses.

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
