## Project Description

The objective of the Conditional Credit Line for Investment Projects (CCLIP) is to advance Renewable Energy (RE) within The Bahamas, improving the reliability and resilience to climate-related natural disasters, while rehabilitating critical infrastructure. The objective of this first operation is to support the Government of The Bahamas (GoBH) with the rehabilitation of critical energy infrastructure and restoration of electricity service in targeted islands heavily affected by hurricane Dorian, while facilitating the integration of RE. The specific objectives of the first operation are to: (i) support the rehabilitation of the electricity Transmission and Distribution (T&D) system and installation of new and resilient RE capacity in Abaco and East Grand Bahama (EGB);(ii) promote the adoption

## Investment Description

- Inter-American Development Bank (IADB)

Ordinary Capital

## Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
