IADB-BH-00014

The Bahamas Water Supply and Sanitation Systems Upgrade Program

Project Description

According to the IADB, the general objectives of the operation are to improve the Water and Sewerage Corporation's water supply coverage, quality of service, operating efficiency and financial performance. The specific objectives are to: modernize the Legal and Regulatory Framework for WSC and the Water and Sanitation Sector; reduce Non-Revenue Water in New Providence and the Family Islands through the use of smart water infrastructure technologies; reduce operating subsidies provided by the Government of The Bahamas to WSC; and increase WSC's resilience to Climate Change and Natural Hazards.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
