## **Project Description**

To visit Jamaica Public Service Company Ltd (JPS) in Jamaica, Belize Electricity Limited (BEL) in Belize and Dominican Corporation of State Electricity Companies (CDEEE) in the Dominican Republic to obtain a better understanding of each country's main energy provider's experience with generation expansion, incorporation of renewables and initiatives in smart grid development and energy efficiency. Additionally, to learn how each Energy Provider's experience with these operations has strengthened its performance as it relates to reliability, affordability and customer service. The lessons learned from these learning exchange visits will be shared with BPL to contribute to planning decisions and with the Bank for any possible future collaboration.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
