Project Description

According to the bank, the general objective of this Technical Cooperation (TC) is to support the Government of the Bahamas (GoBH) to strengthen its capacity to achieve a transition to the implementation of safe, least costly, reliable and environmentally sustainable electricity that will positively impact on the economy and social welfare as stated on the Electricity Act (EA) and National Energy Policy (NEP). The support package will provide the GoBH with a centralized unit that will review and coordinate with energy stakeholders (BPL, URCA, MOW, MOE), consolidate decisions to improve planning, develop and implement managerial tools, engage with other energy sector actors and apply policy actions aiming at implementing the EA.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
