Investment Amount (USD)	$ 0.30 million

Reinforcing the Health System of The Bahamas to Respond to the Health Needs of the Population

Project Description

The TC has three primary objectives: (i) Design the strategy to integrate the primary care services that the Ministry of Health (MOH) and the National Health Insurance Authority (NHIA) provide with the aim to facilitate access and enhance the quality of care. (ii) Design adaptable and climate-resilient clinics to provide primary care services and be able to respond to public health emergencies. (iii). Design the roadmap for the digital health transformation of the health system that will include the electronic health record and telemedicine services.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
