## **Project Description**

According to the Bank's website, the effects of climate change continue to be the greatest inhibiting factor to the sustainable development of the Caribbean. To mitigate the risks of climate change, the Paris Agreement calls for increasingly ambitious climate action. Countries in the region have requested support in articulating the ambitious policy reforms, and for assistance in coordinating a focused regional approach to tackling this challenge. The objective of the operation is to support a program of activities designed to enhance climate action across the Caribbean region.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
