### Project Description

According to the IADB, the general objective of this TC is to support the implementation of the loan operation BH-L1053. To achieve this goal, this TC will finance the following: (i) design of the strategy to integrate the primary health care services through developing a person- and community-centered model of care; (ii) design of adaptable and climate-resilient primary health care clinics which can respond to public health emergencies while sustaining uninterrupted provision of essential health services; and (iii) advance the digital health transformation of the public health care system.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
