### **Project Description**

According to the IADB, the objective of this TC is to strengthen the capacities of The Bahamas' education system in strategic areas of digital transformation and data use, expanding the work initiated on teacher digital literacy toward the development and consolidation of Education Management Information Systems (EMIS), the production and analysis of sector statistics, participation in learning assessments, and the generation of evidence on school climate and discipline. The TC will support training, technical assistance, and the dissemination of good practices that will enable the country to contribute more actively to subregional and Caribbean education initiatives.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
