Project Description

According to the IADB, the objective is to strengthen the institutional capacity of the Government of The Bahamas by designing and implementing a coordinated reform agenda that integrates recommendations from Public Expenditure and Financial Accountability (PEFA), Public Asset Management Maturity Assessment (PAMMA), International Public Sector Accounting Standards (IPSAS) and other assessments into a single implementation roadmap. The initiative will support improvements in public financial management, public asset management, public sector accounting, and evidence based public management through enhanced institutional coordination, fiscal transparency, digital transformation, interoperability, and data driven decision making, thereby contributing to more effective, accountable, and results oriented public institutions.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
