Project Description

According to the Inter-American Development Bank, this project consists of three individual operations toward a common goal. It seeks to reduce materal, infant, and child mortality in the poorest districts of the country through interventions that strengthen primary health care services. The stated specific objective is to "improve maternal and infant, child and reproductive health in terms of access, usage and quality."

The Bank has released no documents clarifying the objectives or operations as of the time of writing.

Investment Description

- Inter-American Development Bank (IADB)

Country counterpart financing: US$340,000

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
