Improving Efficiency, Quality, and Access in Belize's Health System

Early Warning System

Improving Efficiency, Quality, and Access in Belize's Health System

IADB-BL-L1048

Quick Facts

Countries	Belize
Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	B
Voting Date	2024-06-12
Borrower	Government of Belize
Sectors	Education and Health
Investment Type(s)	Loan
Investment Amount (USD)	$ 14.00 million
Project Cost (USD)	$ 14.00 million

Project Description

According to the IADB, the project's general development objective is to improve the health of the population in Belize. The specific objectives are to: (i) improve the efficiency and quality of healthcare delivery; and (ii) improve access to key health services.

Early Warning System Project Analysis

According to the IDB, this project is likely to cause mostly local and short-term negative environmental and associated social impacts and for which effective mitigation measures are readily available

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
