Status	Approved
Bank Risk Rating	C
Voting Date	2016-05-18
Sectors	Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.70 million
Project Cost (USD)	\$ 0.70 million

Project Description

According to the IDB, this project will support the Sustainable Tourism Program II in its aim to mainstream disaster and climate resilience in tourism destination planning in Belize. This TC aims to develop the shoreline stabilization measures for Corozal and set precedent in further coastal studies considered by STP II including studying coastal risk baselines, designing and conducting feasibility analysis, and build capacity in coastal risk reduction and shoreline stabilization. The operation supports sustainable development in small countries and recognizes climate change's impacts on them.

For a full description, see original disclosure.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
