IADB-BL-T1088

Design and Preparation of Sustainable Development Plan for the
Caracol Complex Region

Quick Facts

Countries	Belize
Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	B
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.70 million

Project Description

The objective of this operation is to design and prepare a sustainable development plan for the entire Caracol Region, including a participatory ecosystem-based land use planning process, to prepare the area and local populations for the change that will come along with the rehabilitation of the Caracol road (BL-L1022) and ensure its sustainable development. Strategic Objectives (CS 2013-2017): Increase overnight visitor demand and expenditures in a sustainable manner; Improve road infrastructure to facilitate trade and integration and access to emerging tourist destinations. Cross-cutting issue: Strengthen disaster risk management and climate resilience in all sectors.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
