## Project Description

IDB: PRIVATE FIRMS AND SME DEVELOPMENT-SMALL AND MEDIUM ENTERPRISE

The objective of this project is to help increase private-sector climate resilience in Belize through technical assistance at the enterprise level, while also providing assistance to help local providers capitalize on the growing demand for products and services that help buyers to better manage exposure to flooding, sea level rise, cyclonic winds, heat waves etc. The project will also work with community-based adaptation initiatives on joint initiatives to reduce common climate risk vulnerabilities to households and tourism operations.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
