Project Description

According to the Inter-American Development Bank, the overall aim of the proposed technical cooperation (TC) will be to design a Belize STEAM Laboratory School to foster innovation in vocational and technical Science Technology Engineering Art and Mathematics (STEAM), including a heavy focus on innovative IT strategies across subject areas. The specific objective is two-fold. First, the TC will to develop the conceptual design of the STEAM laboratory school. Second, to develop the architectural design of the STEAM laboratory school. The site of the school will be the Belize City campus of the Belize University, which has relocated to Belmopan. An Institute of Technical and Vocational Education and Training (ITVET) is operating on the university campus and will be incorporated into the STEAM Laboratory school.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
