Leveraging Digital Technology for Improving the Business Climate in Belize

Project Description

According to the Inter-American Development Bank, the objective of this project is to test an approach for reengineering and digitizing the delivery of services that are critical to improving the business climate in Belize.

This technical cooperation project will be composed of four components:

- 1. Design and piloting of technical solution to streamline business processes.
- 2. Legislative review and drafting.
- 3. Communication and knowledge dissemination.
- 4. Coordination and monitoring.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
