Project Description

The general objective of this TC is to conduct the feasibility studies and design of a sanitation system for Caye Caulker¹, which is aimed at improving the sanitary and environmental conditions of Caye Caulker, by providing wastewater collection and treatment services in the northern and southern islands. The specific objectives of the TC are to T: (i) develop the feasibility studies for the wastewater collection and treatment systems for North and South Caye Caulker; and (ii) prepare the detailed designs for South Caye Caulker and preliminary designs for North Caye Caulker.

Investment Description

- Inter-American Development Bank (IADB)

The government's counterpart amounts to USD 50,000.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
