Support the formulation of a program to promote sustainable growth in the blue economy

Project Description

The objective of this TC is to provide the Government of Belize (GoBL) with technical knowledge and preliminary technical inputs necessary for the design and early implementation stages of the loan project - Program to Promote Sustainable Growth of the Blue Economy (BL-L1042). The loan project BL-L1042 is currently in its formulation stage, with a target approval by the end of 2022. The term "blue economy" as used in the TC and the loan project is defined as "a concept that promotes economic growth, social inclusion, and the maintenance and improvement of livelihoods, while at the same time ensuring the sustainability of the marine and coastal environment.

Support the formulation of a program to promote sustainable growth in the blue economy

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
