Project Description

According to the IADB, the general objective of the TC is to support the implementation of the water and sanitation portfolio in Belize. The specific objectives are: i) to develop technical studies and engineering designs; ii) to develop environmental and social studies; iii) to develop financial, socioeconomic, and institutional studies, iv) to provide technical assistance to executing agencies; v) to support data collection; and vi) to promote coordination and synergies between executing agencies.

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

No project contacts available at the time of disclosure.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
