Investment Amount (USD)	\$ 0.10 million
Project Cost (USD)	\$ 0.10 million

Project Description

According to the Bank's website, the objective of this Technical Cooperation is to support the Government of Belize in the implementation of the migration-related portfolio and the generation of information to better characterize the needs and barriers of migrant population to comply with the eligibility criteria to use the GRF resources to expand the scope of the 2024 pipeline operations to benefit migrant population. These will be achieved through two types of actions: (i) technical support to facilitate the implementation and coordination of synergies between the executing agencies and investment programs of active loan operations with migration-related activities and (ii) collection and analysis of data on migrant population related to access basic and social services such as healthcare and urban services.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
