Project Description

According to the IADB, this TC aims to support Belize in designing its first project (BL-L1051) under the IDB CLIMA Pilot Program and implementing the IDB CLIMA Roadmap. The IDB CLIMA Pilot Program incentivizes sector-driven investments to accelerate sovereign borrowers' access to climate finance, aiming to achieve the scale needed to meet national climate and biodiversity targets. The program rewards borrowers who achieve results through sectoral investments measured by key performance indicators (KPI) that: (i) reduce development gaps while generating biodiversity and climate impacts; (ii) strengthen sector capacities to develop project portfolios that include climate and/or biodiversity considerations; and (iii) enhance sector-driven MRV systems for biodiversity and climate to meet international standards for climate, biodiversity, and thematic green debt.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
