Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.35 million
Project Cost (USD)	\$ 0.35 million

## Project Description

According to the IADB, the objective of this TC is to increase the supply of skilled labor in Belize, especially among women, youth, and migrants. The specific objectives of the TC are: (i) improving services that promote access to the labor force of the general population while providing specialized support to women, youth, and migrants; and (ii) increasing skills supply through relevant and quality-focused training in priority sectors. While designed as a standalone operation capable of achieving these objectives independently, the TC will directly support the implementation of 6010/OC- by strengthening and expanding activities related to improving labor market services and increasing the supply of relevant skills. This will reinforce the loan's interventions and enhance its effectiveness.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
