Project Description

According to the IADB, the objective of this TC is to enhance climate resilience in four underserved Belizean municipalities--Corozal, Dangriga, Punta Gorda, and Benque Viejo--by operationalizing the National Land Use Policy (2025) at the local level and strengthening municipal capacity for climate-informed urban planning, governance, and early warning systems. Beyond its pilot scope, this TC contributes to Belize's broader national agenda on climate resilience and municipal governance by generating scalable, replicable tools, guidelines, and institutional frameworks aligned with the National Climate Change Strategy & Action Plan and the Belize Country Strategy 2026-2030 (Pillar i: Enhancing Institutional Capacity), supporting the decentralized implementation of national policy across the country.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
