Road Infrastructure Program to Support the Development and Management of the Fundamental Road Networ

Road Infrastructure Program to Support the Development and Management of the Fundamental Road Networ

Quick Facts

Countries	Bolivia
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Sectors	Transport
Investment Type(s)	Loan
Investment Amount (USD)	$ 130.00 million

Project Description

The program objective is to continue improving the quality and serviceability, accessibility, and safety conditions of the Primary Road Network (RVF) through an increase in paved road coverage and the rehabilitation and upgrading of road corridors connecting production centers to local and foreign markets. The program will also promote improvements in public expenditure efficiency in the sector by supporting integrated road asset management. This will involve incorporating the works into road maintenance management systems and building capacity at the Bolivian Highway Administration (ABC).

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
