POLICY REFORM PROGRAM FOR THE WATER, SANITATION, SOLID WASTE, AND WATER RESOURCES SECTORS IN BOLIVIA

Project Description

The objective of this operation is to continue the support of the two previous consecutive operations executed to support policy reforms under the programmatic policy-based loan modality, contributing to increase coverage and improve the management of potable water and sanitation services and the management of water resources in Bolivia, through the development of an institutional and policy framework that includes actions intended to: (i) strengthen sector planning; (ii) strengthen the organizational and institutional development of sector entities; (iii) support effective implementation of the financial policy; and (iv) develop monitoring and evaluation instruments.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
