| Project Cost (USD)      | \$ 43.00 million                       |

### Project Description

The main objective of the project is to improve access to quality public spaces and habitats in the city of Sucre, through the construction of a corridor that will revalue and integrate a network of public spaces and natural parks. It will become a large natural green corridor that will promote active and inclusive mobility, improve public transport services and travel times. Actions and measures for adaptation and mitigation to climate change and improvement of energy efficiency and SMART connectivity will also be incorporated into all the components.

### Contact Information

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
