Investment Type(s)	Loan
Investment Amount (USD)	\$ 202.20 million
Loan Amount (USD)	\$ 202.20 million
Project Cost (USD)	\$ 202.20 million

Project Description

According to the IADB, the general objective of the program is to strengthen energy security in Bolivia's Northern Amazon Region (BNA) by providing a reliable and cost-effective electricity service to households and productive sectors. The specific objectives are to: (i) contribute to the diversification of electricity generation; and (ii) strengthen infrastructure and improve the efficiency of electricity distribution systems.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
