

IADB-BO-M1067

Operationalizing Bolivia's Joint Mechanism for Mitigation and
Adaptation to Clim

Quick Facts

Countries	Bolivia
Specific Location	Chaco Region
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Voting Date	2015-11-11
Borrower	Government of Bolivia
Sectors	Climate and Environment, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 1.26 million
Project Cost (USD)	\$ 1.93 million

Project Description

This project tests a model for watershed conservation known as Complementary Agreements with Mother Earth. Specifically, the model will be tested in the Chaco region with the aim of helping 3000 upstream water users and 15000 downstream water users.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
