Project Cost (USD)	$ 0.25 million

Project Description

Support the Ministry of Health to strengthening the healthcare model in the first level, within the framework of the SAFCI policy and the integral management of health networks, with emphasis on obstetric and neonatal care, which strengthens the reduction of maternal and neonatal mortality in the country, and the integration of the primary care with the second and third level of care, thus ensuring the continuum of healthcare, with an intercultural and gender based approach. This objective is in line with the 2010-2010 Institutional Strategy Update (AB-3008) of social inclusion and equality and with the IDB's strategy in the country, helping to close the social gaps; strengthening of the primary health care model will increase accessibility to the health services in an equitable and timely manner. This TC is also aligned with the CRF indicators of Social Inclusion and Equality, Institutional Capacity, and Gender Equality and Diversity.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
