Project Description

The project seeks to accompany the first steps in the construction of an ecosystem of entrepreneurship and innovation in the country: from an incipient ecosystem to a dynamic ecosystem, with a greater connection between actors. From an economy based on traditional industry and raw materials, to a knowledge economy, with innovative undertakings that incorporate technology, and with industries that incorporate innovation. From an investment approach in traditional businesses, to investing in more innovative businesses with high growth potential.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
