Exchange of Experiences Between Bolivia and Ecuador in the Water and Sanitation Sector

Project Description

The objective of the Technical Cooperation (TC) is to exchange experiences between the Social Public Water and Sanitation Enterprise (EPSA) and the Metropolitan Public Water and Sanitation Enterprise of Quito on the establishment of a mechanism to ensure the actions that allow activities of preservation and protection of the water sources that supply the Metropolitan area of La Paz and the City of Tarija, which allows the consolidation of an integrated management of water resources in the basins.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
